Renting a house

Plan to rent a house

Have you ever planned to rent? What have you had to put the most effort into?

We encourage you, like Helen, to make your own outline before renting a house. Imagine you have a € 450 budget. Make a list with your priorities, look for the best rental options and calculate your monthly expenses and charges arising from it.

Revise sections "Needs and budget" and "Budget" in the Story 2!

How much budget have I per month?: 450 euros

What do I need? ; What am I looking for? :
